PROFESSIONAL SUMMARY

Results-driven Developer and Data Science Student with deep expertise across modern web architectures, interactive visualization, and machine learning pipelines. Passionate about crafting high-performance, cinematic digital experiences and building data-driven systems that deliver measurable impact.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Bachelor of Science in Information Technology / Computer Science
Academic Excellence | Focus on Data Structures, Algorithms & Database Systems

Post Graduate Diploma in Computer Applications (PGDCA)
Advanced Computer Applications, Systems Programming, Database Architecture

Applied Artificial Intelligence & Machine Learning Specialization
Neural Networks, Deep Learning Architectures, Prompt Engineering & Model Fine-Tuning

TECHNICAL EXPERTISE

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS, Motion, WebGL / Canvas

Data Science & AI: Pandas, NumPy, Matplotlib, Scikit-Learn, Gemini AI API, Data Visualization

Tools & Platforms: Git, GitHub, VS Code, Express, Vite, REST APIs, Linux/Bash

KEY PROJECTS & ENGINEERING WORKS

1. Custom AI Chatbot Platform
- Engineered an intelligent conversational system powered by Gemini AI API with streaming responses.
- Built custom persona management, context caching, and luxury dark editorial interface.

2. Medical Shop Inventory Management System
- Real-time pharmaceutical stock tracking, batch expiry notifications, and fast invoice lookup.
- Implemented analytics on SKU turnover, reorder alerts, and sales margin reporting.

3. Data Analysis & Interactive Visualization Suite
- Developed dynamic data exploration dashboards with Pandas, NumPy, and Matplotlib algorithms.
- Visualized multi-dimensional feature correlations, statistical distributions, and trends.

4. High-End E-Commerce Platform
- Minimalist luxury storefront with lightning-fast catalog search, dynamic cart, and checkout flow.
